Fund Commentary & Performance Review		Fund Returns			
			NI(U)T	Fund	KSE-100
The benchmark KSE-100 gained 0.71% during the month of August, 2016 to close at 39,810 levels. The market failed to build further on the bullish momentum prevalent since the beginning of the current financial year. Major drag to the market emanated from substantial net selling by foreign investors, amounting to USD 20 million for the month of August, 2016. Some utrubulence on the political front coupled with negative sector specific news flow regarding expansion plans announced by Cement manufacturers and high inventory levels and consequent further discount in prices by Fertilizer manufacturers kept the market subdued. Volumes, however remained strong with 258 million shares traded in the market against 189 million shares last month showing a MoM increase of 37%. This was mainly due to active trading in second and third tier scrips. The month was also significant as the KSE-100 index surpassed the 40,000 level for the first time during the current financial year.  During the month of August 2016, the benchmark KSE-100 index increased by 0.71% whereas your Fund's NAV appreciated by 2.38% during the same period thus giving an outperformance of 1.67%. On a YTD basis (July 16 to August 16), the KSE-100 index increased by 5.36% whereas the NAV of your Fund went up by 7.11%, thus, showing an outperformance of 1.75%. The Scheme has maintained provisions against Workers' Welfare Fund's liability to the tune of **Rs.507 million**, if the same were not made the NAV per unit/ year to date return of the Scheme would be higher by **Rs. 0.51/ 0.78%**. For details investors are advised to read the latest Financial Statement of the Scheme.

## Compliance with Circular # 16 of 2010 / Non-compliant Investments

NI(U)T, our flagship fund, was launched in 1962 with an intention to provide investment opportunities to masses. Since its inception NI(U)T has a policy of making investments while remaining compliant with the requirements of its constitutive documents and all other relevant rules and regulations. However, with the promulgation of NBFC Regulations 2008 small portion (around 5% of net assets) does not meet the requirements of current regulations. However, efforts are being made to bring all such investments in compliance with NBFC Regulations 2008 while protecting the best interest of the unit holders

## Disclosure regarding Tax on Bonus Shares – NI(U)T

Finance Act 2014 has introduced tax on bonus shares issued by companies. Most Equity Funds including NI(U)T Fund have challenged this on various legal grounds and have sought relief from the Court. The Court, in its order dated November 25, 2014, has granted interim relief by passing the restraining order whereby the Defendants, (issuers of the Bonus shares) are being refrained from deducting or transferring 5% withholding tax on Bonus shares issued by them to the CDC Account of the Income Tax department.

As an abundant caution, the NI(U)T Fund has made payment of Rs. 28.15 million as of August 31, 2016 which is equivalent to 5% value of the bonus shares, determined on the basis of day-end price on the first day of book closure. The market value of 5% bonus shares as on August 31, 2016 is Rs.91.62 million.
