May, 2017 witnessed the ransition of Pakistan to the MSCI Emerging Market Index as Pakistan was due to become a part from June 1, 1017. MSCI EM upgrade caused positivity in the market with major activity in the stocks expected to be a part of the MSCI EM Index. However, announcement of budget towards the end of the month dampened investor entiment due to the taxation measures pertaining to the capital markets. The last trading session of the month witnessed the largest traded value since 2007 as more than half a billion dollars worth of stocks changed hands in the ready market ahead of the MSCI upgrade.
